A DECLINE IN STOCKS

REACTION SET IN ON ACCOUNT OF LOWER FOREIGN MARKET.

In Activity Tobacco Trust Led the Business on 'Change-Local Markets Continue Sluggish.

At New York yesterday money on call was easy at 304 per cent.; last loan, 3; closed,

Prime mercantile paper, 5@7 per cent. Sterling exchange steady, with actual business in bankers' bills at \$4.871/@4.87% for demand and \$4.861/4 @4.861/2 for sixty days posted rates, \$1.87@4.87% and \$4.881/2@4.89. Commercial bills, \$4.851/2.

Bar silver, 78%c; silver certificates, 681/20 69c. At London yesterday bar silver was 31 5-16d per ounce.

Total sales of stocks were 250,847 shares, including American Tobacco, 41,100; Atchison, 6,200; American Sugar, 16,600; Burlington, 8,-700; Baltimore & Ohio, 4,100; Chicago Gas, 11,000; Denver & Rio Grande, 4,600; Distilling, 7,500; General Electric, 11,700; Missouri Pacific, 15,600; Rock Island, 10,700; St. Paul, 21,700; Tennessee Coal, 3,100; Union Pacific 4,900; Western Union, 5,400; Wheeling & Lake Erie, 3,400.

Reaction was the order of yesterday's stock spculation, the initiative coming from London, where a lower market for American securities was reported. Estimates of foreign selling in this market ranged between 10,000 and 15,000 shares. The bear element detected indications of liquidation and pressed the market to the fullest practicable extent.

The industrials assumed the leadership in point of activity, the combined transactions berries, 2-pound, 70@80c; raspberries, in Tobacco and Leatner preferred footing up one-quarter of the entire dealings. The forselling of the international shares reterred to caused lower prices on the New York Stock Exchange, and further concesions were made in succeeding operations most severe losses were made in the industrials and specialties, particularly Leather preferred, which yielded 2% per cent, on sell ing for both accounts on expected failure of the directors to declare a dividend at yester-day's meeting. The downward movement was accelerated by the catching of numerous stop orders. A revival of unfavorable forecasts of the probable summing up of the experts who are making an examination of the general condition and prospects of the Baltimore & Ohio was improved by the traders, who effected a break of 3% per cent. in the stock. There was a subsequent recovery of 1% per cent. from the extreme low point. The improvements were short lived s a renewal of aggressive tactics by the traders brought about a selling movement at midday in which most of the rally was lost. Manhattan dropped 2 per cent. The official statement of the treasury gold reserve, showing an excess of \$23,522,378 over he \$100,000,000 limit, an increase of over \$15, 00,000 from Monday's figures, had some effect in causing modreate improvement around o'clock. Tobacco suddenly assumed prominence in the last hour by decided heaviness, resulting in a rapid break of 3 per cent. on heavy dealings. The only explanation of this ment was a vague rumor of either actual or in prospect. The weakness of this stock was communicated to the general market, and, together with the news of the defeat of the Dingley revenue bill in the United States Senate, started a selling movement all along the line, in which declines up to 1 per cent. were scored, with Sugar and the grangers the chief sufferers. The clos-

early dealings in railway bonds were attended by decreased activity, but a firm tone prevailed. In the late session, however, marked heaviness was displayed in the Atchon and Northern Pacific issues, which was n turn communicated to the other securities nd caused a depressed tone at the close. altimore & Ohio fives singularly, in view of the weakness in the stock, rose 2 per cent. to 95. The aggregate dealings were 1,923,000. The principal net declines were in Fort Worth & Denver firsts, trust receipts, 2; Northern Pacific threes, 1; Northern Pacific consol fives, 11/2; Northern Pacific trust receipts, 13/4; Atchison adjustment fours, 11/8 and Atchison fours, trust receipts,

ing was heavy in tone, with severe net losses

some shares and fractional declines gen-

Transactions of \$158,000 were recorded. Virinia deferred sixes, stamped, were in de-

mand and rose slightly on purchases of \$20,

LOCAL GRAIN AND PRODUCE. Trade Shows More Improvement, with Poultry and Eggs Lower. On the wholesale streets and on Commis-

nuch improved that merchants are talkg more cheerfully. Still, so much room there for further increase that little boasting is done. Poultry is weaker and but 6c would be paid for hens and chickens. Turkeys, however, are in good request. Eggs decline and shippers will pay but 10c for fresh stock. Butter is weak on large receipts. Groceries are steady, except coffees. In dry goods there is more activity and prices are unchanged. Provisions are meeting with better sale, but prices carry a weak tone at the recent reductions. Flour is firm and local demand good. Prices vary little from ten days ago, when changes were made in some grades. Fruits and vegetables are moving out more freely and prices continue at a low range. Other markets are without feature. The local grain market was dull yesterday, few transactions and bids track the same as on Monday, as follows:

"The Wages of Sin Is Death." To the Editor of the Indianapolis Journal: Several articles recently published in the Journal induce me to make the following observations. I think it is worthy of consideration that familiarity with disease and render the attendant unfeeling. Physicians and nurses who are necessarily thrown into the company of the sick and minister to their wants are no less kind and gentle than those outside of these professions. I will be pardoned, I hope, for speaking words of commendation for my own profession when I say that medical men are not surpassed in deeds of mercy and acts of kindness by any class of persons. I have met a large number of the most distinguished surgeons of this country-men who daily used the knife—and I have seen them in times where the poor assembled for relief, and I have found them men as humane as one could wish. I have never heard that Florence Nightingale has been charged with cruelty or inhumanity because of her experience in the Crimean war.

The naturally cruel man does not need a cadaver to develop his disposition; he will manifest the same spirit in his home or even in the pulpit. The man who cut off Pearl Bryan's head is a bad man; the man who robbed her of her womanly innocence is a worse man. If there be one chamber blacker than another in the region of despair the despoiler of virtue will enter it in advance of the man who despoils the There is something worse than cutting off young women's heads. Let us look beyond the headless body of poor Pearl Bryan for a moral in her case. girl chooses bad company, is betrayed, deliberately leaves home for the purpose o having an abortion produced and her unborn child killed, and is finally herself murdered. Within the last eighteen months three cases in Delaware county have come under the eve of the civil authorities, where girls have died at the hands of abortionists-three girls and three children were murdered. Decapitation was unnecessary in either case and as the men who ruined the girls and consented to their deaths, as well as the death of their own offspring, were "respectable," they escaped punishment. Our county is no worse than others in this State. Oh, we are so busy, and the subject is so delicate, and society is so nice, that we pass these cases by with the simple inquiry, "Am I my sister's keeper?" Finally, because a poor girl is beheaded we condemn such an act and forget the baser crimes While society is boiling over with excitement the "young men" are in prison receiving calls from the numerous family of fools If Pearl Bryan's tragic ending will arouse

death may not be in vain. Muncie, Ind., Feb. 25. A Wheelman's Grievance. To the Editor of the Indianapolis Journal North Meridian street, I ran over one of the iron pipes that project from three to four inches above the street surface. I was thrown from my wheel, but fortunately escaped injury. While I was flying through the air I endeavored to locate the

responsibility for bodily injury, as it did not seem possible that I would escape. As

I understand it, the city has ordered the

water and gas companies to place these pipes level with the street surface. I will wager there will be a suit for damages

BOTH FOREIGN PRICES AND THE CHICAGO MARKET UPWARD.

Corn and Oats Were Firm, Reflecting Some of the Strength in Wheat-Provisions Lower.

CHICAGO, Feb. 25.-Cables again played an important part in wheat prices, and much strength displayed to-day is attributable to the higher foreign markets. Trade was heavy, and the upward tendency seldom interrupted, May closing at an advance of 1%c since yesterday. Corn and oats reflected some of the strength wheat, closing %c and %c higher, respectively. Provisions were weak, and closed

Wheat had another strong opening because of the Liverpool opening, showing another advance of %c, and to the operators have carried over from the previous day a good deal of bull feeling engendered by yesterday's news. The strength at Liverpool, it was afterwards discovered, was not all due to the previous day's advance here, but also to the fact that further news from Argentine showed that the damage to the wheat crop there was of such a serious character as to promise a reduction of the exportable surplus to about 15,-000,000 bu. This added materially to the strength. The Northwestern receipts were heavier by 116 carloads, than on the corresponding day of the week before, and that, with the heavy world's shipments-8,101,000 bu-caused some decline after the early bulge, but the Argentine news already referred to and a further 1/4d advance reported by the second Liverpool cablegram, lifted the obstructions to the upward trend of the market, especially as it was remem-bered that last week was the first for two months in which enough wheat for a week's to 66\\delta 66\%c and a reaction to 65\%c, the market had a shot to 66\%g66\%c before 12 o'clock. When Bradstreet's statement of the world's visible was received, giving a decrease of 145000 bu; the corn, 42,000 bu; clover seed, 600 bags. Shipments—Flour, 1,000 brls; wheat, 4,500 bu; decrease of 1,456,000 bu, the price of May clover seed, 875 bags. wheat touched 66%c. The market continued CINCINNATI, Feb. 25 firmly. This was due to the fact that New York reported sixty boatloads taken there for export. The closing price was 67%c. Corn was quiet, but firm, the large local receipts, however, counteracting to a certain extent the influence of the wheat bulge. May opened %c higher, at 30%c, and fluctuated but little, closing at 31c. Oats were quiet. May opened unchanged at 21%c, and was heavier for some time.

owing to heavy receipts and liberal offerings, but later it rallied as wheat and corn went up, and closed firm at 21%c. Provisions did not share in the upward novement of the grain markets. The large run of hogs and the fact that packers generally were selling proved too much for prices, and the close showed losses of 10c on pork and .05c on lard and ribs. bu; rye, 2,000 bu; barley, 36,000 bu. From a Broker's View Point. (Chicago Dispatch to O. H. Faught.) The advance in the wheat market of 5,000 Monday was continued Tuesday morning, when cables came in higher and with a general demand from parties who got short Monday. The market opened 1/2c higher than the close Monday night. Early trade was limited, but as the news of a bullish nature began to arrive the trade broadened and considerable outside business was transacted. The Thomas crop report was a bullish factor in the market, as evidenced by the advance in wheat. New York has been a good buyer in this market to-day. The higher closing cables, together with the report that Argentine would not have more than 15,000,000 bu wheat for export, turned sellers to cover their short lines, which sent the market rapidly up. The large purchases of cash wheat made here and the large amount taken at New York for export has stimulated trade, and that suffering does not conduce to cruelty, nor | is all that is necessary to make a bull market. Without trade prices drag and become full, but now that this feature has entered the market we expect to see our predictions verified and see wheat sell-at 70c on this upturn and 75c before the 1st day of April. Puts, 65%c; calls, 681/2c; curb, 671/2c

Corn has ruled remarkably strong, considering the large receipts; and if large re-ceipts have no effect on this cereal it would look as if the price was low enough. Oats were strong in sympathy with the other grain markets. Provisions-Pork opened lower on larger eccipts of hogs than expected, but at the decline all offerings were quickly absorbed, and the market became firm and closed near the top point of the day. Lard and ribs are slow and a trifle lower in sympathy with pork.

BOSTON, Feb. 25.-The condition of the wool market is not materially different from last week. Prices are being maintained, but, if anything, there is a slight falling off in activity, the business of the past week being less than any week this year. In Territory the long staple wools that can be combed maintain a steady tone, although recent sales have been slow There has been a little business in fleeco wools, but the market is slow with last week's prices maintained. The market for Australian wool continued firm, and the demand holds up well under the present dull conditions. Elsewhere. CHICAGO, Feb. 25.-Cattle-There was the usual light Tuesday run and although the demand did not call for a large number vesterday's advance was maintained. Sales o-day were on a basis of \$3.30@4.40 for common to strictly choice native dressed beef and shipping cattle, few selling under \$3.65 or over \$4.15. Butchers' cattle are sell-ing briskly and cows and heifers sell at \$2.50 @3.50. Calves were plentiful and sold free-ly. No particular change was noticed in the stocker and feeder trade and sales were quite moderate at \$3.20@3.75, most of the inquiries being for good feeders.

Hoge-Prices continue on the down grade and packers' purchases this morning were largely at \$3.90@4, while shippers paid \$4@ 4.05 for most of their selection. Receipts were large and prices were 5@10 cents lowe with sales at an extreme range of \$3.8100 4.17½ and it was a mighty bad market for

sellers. The average quality of the offerings continues excellent and sales, are mostly within a narrow range.

Sheep-Prices showed no particular change, there being a fair demand, with receipts about the average. THE BLUE AND THE GRAY. Commander Walker Talks in Opposition to the Proposed Parade.

New York Tribune.

Gen. Ivan N. Walker, commander-in-chief of the G. A. R., in speaking last evening of the proposed "Blue and Gray" joint parade in this city on the Fourth of July, said that so far as he was able to learn it did not meet the approval of the Grand Army of the Republic. "I have made myself familiar with the sentiment of our comrades in nearly every important city in the Union," the Commander-in-chief said, "and their opinion is generally adverse to the project. In Philadelphia, Cincinnati, Pittsburg, Cleveland, Chicago, Buffalo, Albany, Detroit, Milwaukee, St. Paul, Minneapolis, Boston, Providence. Harrisburg, Washington, St. Louis, Indianapolis and among a large number of our most influential members in this city and Brooklyn, and in many other places I have visited, there is a strong feeling that the plan ought to be abandoned. "One argument against it is that it is in

opportune. The time selected is most unfortunate. To bring several hundred thou-sand veterans of both sides to this city, when all the residents who can get away will be gone to the mountains and the sea-Spirits of tur- side to avoid the hottest part of the summer, seems very unwise to most comrades with whom I have talked. Exposure to the intense rays of the sun in a long march over the heated pavements of this city on a July day will be almost certain to mean disease and death to a large number of the men of advanced years who are expected to take part in the parade. "If there has been at any time in the last thirty years the necessity of public testi-

mony to the restoration of peace and the promotion of earnest and thorough frater-nal feeling, it certainly cannot be said that It has been in any degree owing to the acts public. As an organization, and as individuals, we have always been anxious to meet and co-operate with any and all upon the Dr. W. B. FLETCHER'S SANATORIUM common plane of loyalty to the country. "What is to be the nature of the parade" If it is to be, as I fear, the intention to obliterate the radical distinction between the two armies and have them so march as to represent antagonistic ideas, although f may not be made as fully apparent as it might be by carrying the discarded banners that once floated over the gray, as its true symbol, I cannot indorse the project. We cannot, as an organization, join in any public demonstration, and march with those who fought against the Union clothed in the uniform of a cause that was shot to death by the Grand Army of the Republic thirty years ago. The Grand Army has for its cardinal prin ciples fraternity, charity and loyalty and its nembers everywhere and at all times heartly extend in the broadest fraternal sense the sentiments that these tenets embody to those who fought so valiantly against them in the armies of the rebellion. At the

same time we do not forget the great danger into which the Union was brought and the sacrifices and patriotic services of those who so bravely offered and freely gave their lives for its salvation, and believing that this memory is of momentous value and should live through all generations, they should not encourage anything that would tend to efface it from the minds of the "It is intended, it is said, that there shall

be but one flag and that of the United States in the parade. Why not require the same as to uniform? The sooner those who vore the gray shall cease trying to symbolize the 'lost cause' by flag or uniform and as a distinct part of the people, the sooner will a full realization of patriotism and fraternity be brought about."

"Father Is Coming." Chicago Times-Herald.

The Nineteenth Indiana had for its first commander Colonel Solomon Meredith, famous as a stock raiser at before the war. He was t. wkward, unmilitary, but brave. His se muel was a lieutenant in the Nineteer He was as tall, a little more awkward a. a little less military than his father, but, like his father, brave. Lieutenant Samuel Meredith was officer of the division guard one day early in the history of the regiment. The custom was then, as it is now, to have the guard fall in and salute when a field or general officer approached. Colonel Meredith suddenly came upon the guard without being noticed. soon as lieutenant Sam saw him he called market opened slow, dull and lower, packers out, in a loud voice: "Turn out the guard, father's coming!" Poor Sam never heard the last of "Turn out the guard, father's coming." The balance of the brigade would call out, all along the line, whenever Sam

he would hear, "Turn out the guar Meredith grins the boys used to enj

Bill Nye's Humor,

Detroit Tribune. Bill Nye will hardly get justice from his own generation. The cap and bells of the jester occupy the eyes of most people who look at him to the exclusion of his more essential qualities. Bill Nye will be for a time remembered as the writer of an infinite deal of nothing that was calculated to amuse and nothing more. After a time, however, there will a juster estimate of his work, especially when the race shall have become wiser, and when the philosophy of the humorist shall become trite and universally accepted, whereas now, by reason of its novelty, it is little recognized. Bill Nye could see far into the millstone of sham and hypocrisy, and he had a charming way of telling what he saw so charming, indeed, that we have largely forgotten the substance in the form. Cervantes wrote to a dull and unrespons generation, because the world was not fully able to understand the great truths which were hidden beneath the grotesque rai-ment put upon them by the famous Spaniard. Bill Nye has been likened to Cer-
